Package files

data.go item.go

type **ESResponse**

```
type ESResponse struct {
    Took     int      `json:"took"`
    TimeOut  bool     `json:"time_out"`
    Hits     MainHits `json:"hits"`
}
```

type **Item**

Item structure

```
type Item struct {
    ID          string   `json:"id,omitempty"`
    Title       string   `json:"title,omitempty"`
    Price       float64  `json:"price"`
    ImgURL      string   `json:"imUrl,omitempty"`
    Related     []string `json:"related,omitempty"`
    SalesRank   string   `json:"salesRank,omitempty"`
    Brand       string   `json:"brand,omitempty"`
    Categories  []string `json:"categories,omitempty"`
}
```

type **MainHits**

```go
type MainHits struct {
    Hits  []SubHits `json:"hits"`
    Total int       `json:"total"`
}
```

type **SearchResponse**

```go
type SearchResponse struct {
    Items []*Item `json:"items"`
    Total int     `json:"total"`
}
```

type **SubHits**

SubHits contains a sub-data structure returns by elasticsearch

```go
type SubHits struct {
    Source Item   `json:"_source"`
    ID     string `json:"_id"`
}
```

Build version go1.8.3.
